# Acknowledge

As we understand that the eProject is a step-by- step learning environment that closely simulates the class-room and Lab based learning environment into actual implementation. It is a projectimplementation at your fingertips!! An electronic, live juncture on the machine that allows you to.

- ✓ Practice step by step i.e. laddered approach.
- ✓ Build a larger more robust application.
- ✓ Usage of certain utilities in applications designed by user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Enhance skills and add value.
- ✓ Work on real life projects.
- ✓ Give a real life scenario and help to create applications more complicated and useful.
- ✓ Mentoring through email support.

We would like to send a great thank to our professor and others student for the addorable supports during the time in project.

Beside serveral mistakes we had made in the project, we hope to have more oppotunities to widen our knowledge in web developing world.

We also thank you so much for your information and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning any things as much as we can to be more successful in the future.

Your Sincerely,  
Team Group 2.

# Synopsis

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us HTML/JavaScript but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

The website (in this project) is a tool that brings everything in the world to you such as historic monuments information natural knowledge or skill in technology...

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

And get back ***eprojects@apttech.ac.in*** as the assigned schedule.

<b>Design Plan:</b> ALPINE ASCENTS Website	<b>Document Name:</b> Problem Definition	<b>SWD/Form</b> No.01/PD/Ver1.0
<b>Effective Date:</b> 14-07-2022	<b>Version</b> 1.0	<b>Page No:</b> 1 of 21

## Problem Definition

### Problem Definition:

1. Alpine Ascents is a leader in the Mountaineering and Climbing industry and has been instrumental in setting guiding standards in the international climbing community. Our mission and goals are simple: by using the best climbing talent in the country, we offer the opportunity for climbers at all levels to achieve their personal aspirations through quality, challenging, safe and fun expeditions. Unparalleled mountain adventures are what we do.

2. Mountaineering, also called mountain climbing, the sport of attaining, or attempting to attain, high points in mountainous regions, mainly for the pleasure of the climb. Although the term is often loosely applied to walking up low mountains that offer only moderate difficulties, it is more properly restricted to climbing in localities where the terrain and weather conditions present such hazards that, for safety, a certain amount of previous experience will be found necessary. For the untrained, mountaineering is a dangerous pastime.

3. Unlike most sports, mountaineering lacks widely-applied formal rules, regulations, and governance; mountaineers adhere to a large variety of techniques and philosophies when climbing mountains.

4. The website which they demand is supposed to provide user friendly environment and navigation. The important menu must be stated in the top section of the webpage. Also a decent look out and color combination is expected.

<b>Design Plan:</b> ALPINE ASCENTS Website	<b>Document Name:</b> Problem Definition	<b>SWD/Form</b> No.01/PD/Ver1.0
<b>Effective Date:</b> 14-07-2022	<b>Version</b> 1.0	<b>Page No:</b> 2 of 21

5. You are supposed to create a Single-Page-Application and responsive Website for them with the below mentioned requirement specifications.

6. The website is to be developed for the Windows Platform using HTML5, JSON, Angular JS, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

### **Identify the problem:**

1. The portal will be designed as a Single-Page-Application and responsive Website with a set of pages and menus that represent choice of activities to be performed. The pages, menus, and other visual elements must be designed in a visually appealing manner with attractive fonts, colors, and animations.

2. All of these should also be laid out in a responsive manner

3. The Web site is to be created based on the following requirements.

- a. There should be detailed information about mountaineering.
- b. The site should also include the details mentioned below in relation to the mountaineering.
- c. History.
- d. Types/Styles.
- e. Techniques.
- f. Sheltering.
- g. Hazards.

4. Various records related to it should also be made available.

<b>Effective Date:</b> 14-07-2022	<b>Version</b> 1.0	<b>Page No:</b> 3 of 21

5. The site should also provide the details of groups/organizations/clubs with their location should be displayed using GeoLocation API (eg. GoogleMaps) that arrange mountaineering to various locations in different areas across the globe Users should also be able to see various success stories of organized camps.

6. There should be a gallery section where informative /related videos and pictures.

7. There should be a separate section for the material on latest developments in the field.

8. Also there should be general guidelines.

9. Also each link must be properly hyperlinked; images must be used wherever necessary.

**Over and above this, the portal should implement the following functionalities:**

1. Display a continuous scrolling ticker at the bottom of the page with current date, time, and location (hint: Use geolocation features of HTML5).

2. Display a visitor count at the top right corner of the page beside a logo image.

3. The menu options should change color on hover and also after clicking.

4. Fade in and fade out options can be used for the menus.

## II.1 Book trip

### Bhutan Laya - Ghasa Trek Overview

Absolutely incredible experience, enjoyed every minute and would like to express my huge THANK YOU to the entire AAI team, Bhutan as travel destination proved to be one of the most exquisite places on earth: beautiful nature and landscapes, unique cultural, architectural and historic heritage, and most importantly wonderful people. The expedition was typically for AAI managed in an excellent manner with perfect organization, very well thought-through planning and schedule, and outstanding delivery and execution. I do not have a single criticism and would repeat the exact same trip once more. -Bhutan Trekker

#### Basic Information About Trek

Register

**Overview**
Itinerary
Why Trek With Us
GoogleMap of Bhutan

*The Laya-Ghasa Trek is considered one of the most scenic treks in Bhutan, offering amazing views of some of the most pristine and unspoiled landscapes in the Himalaya. This fourteen day, 217 km journey begins in Paro and takes you through gorgeous alpine meadows, high mountain passes and dense sub-tropical jungles before terminating in Tashithang.*

**Hiker Boot Midweight Sock  
(Full Cushion) Men's**

Darn Tough

**\$27.00**

Cushioning along the bottom of the foot provides the perfect amount of support while a smooth, performance fit assures there is no slipping, no bunching, and no blisters. Fine gauge knitting makes this Merino Wool sock a true workhorse that is supremely comfortable, breathable and fast drying. This sock stays cool in the summer and warm in the winter, plus it is naturally antimicrobial which is a great feature when you need to get an extra day or two out of your socks.

Activate Windows  
Go to Settings to activate Windows.

The Full Cushion Boot Sock is a slightly warmer and higher-volume version of the **Regular Cushion Boot sock**, and is perfect for roomier footwear or colder
